World-class Production

Pioneering in quality & innovation

## State-of-Art Mfg. Facility

Our Mfg. collaborators are ideally the global leaders in every segment.

Currently we are collaborated & associated with:

WHO GMP & ISO Compliance MFG. Facilities

State-of-Art Mfg. Facility

- ▶ State of the Art, World Class Production Facilities with years of Manufacturing Experience.
- ▶ Top Quality Certifications & Export Accreditations.
- ▶ DSIR Approved R & D Facilities & NABL Accredited Laboratories.

*The Unbeatable Fighter...*

# COVIBEST- $\frac{500}{250}$

Azithromycin 250 / 500 mg Tablet

**CMI** CLINICAL  
MICROBIOLOGY  
AND INFECTION

SYSTEMATIC REVIEW | VOLUME 27, ISSUE 1, P19-27, JANUARY 01, 2021)

Hydroxychloroquine alone was not associated with reduced mortality in hospitalized COVID-19 patients but the combination of hydroxy-chloroquine and azithromycin significantly decreased mortality.

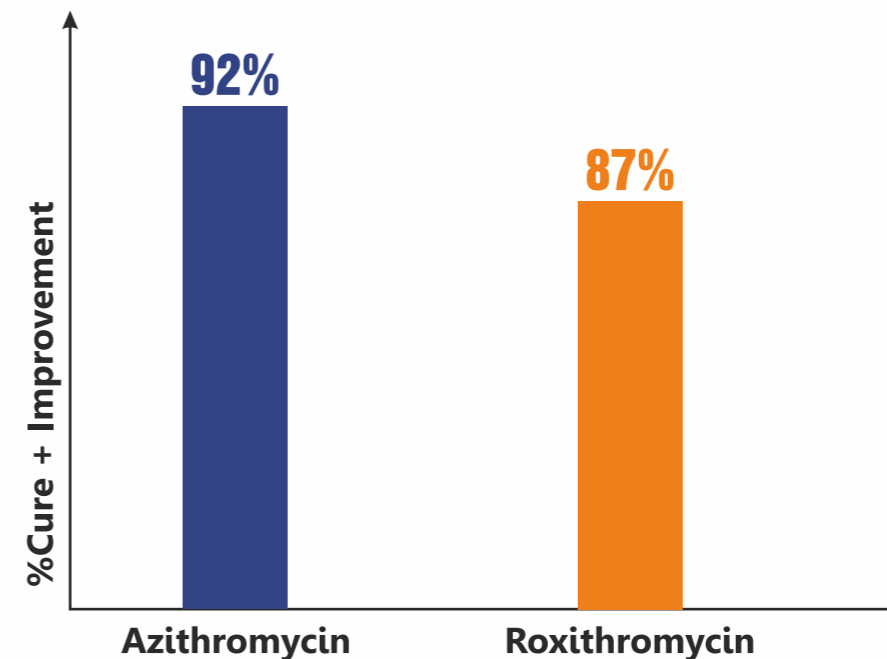

## URTI

- ✓ Acute & Chronic Sinusitis
- ✓ Tonsillitis & Pharyngitis
- ✓ Otitis Media

## LRTI

- ✓ Acute & Chronic Bronchitis
- ✓ Community Acquired Pneumonia
- ✓ Acute Exacerbation Of COPD

Better clinical efficacy than Roxithromycin

Antimicrobe Chemotherapy 2002 Jan.49(1); 113-9

▶ Antibiotic with broad spectrum of coverage.

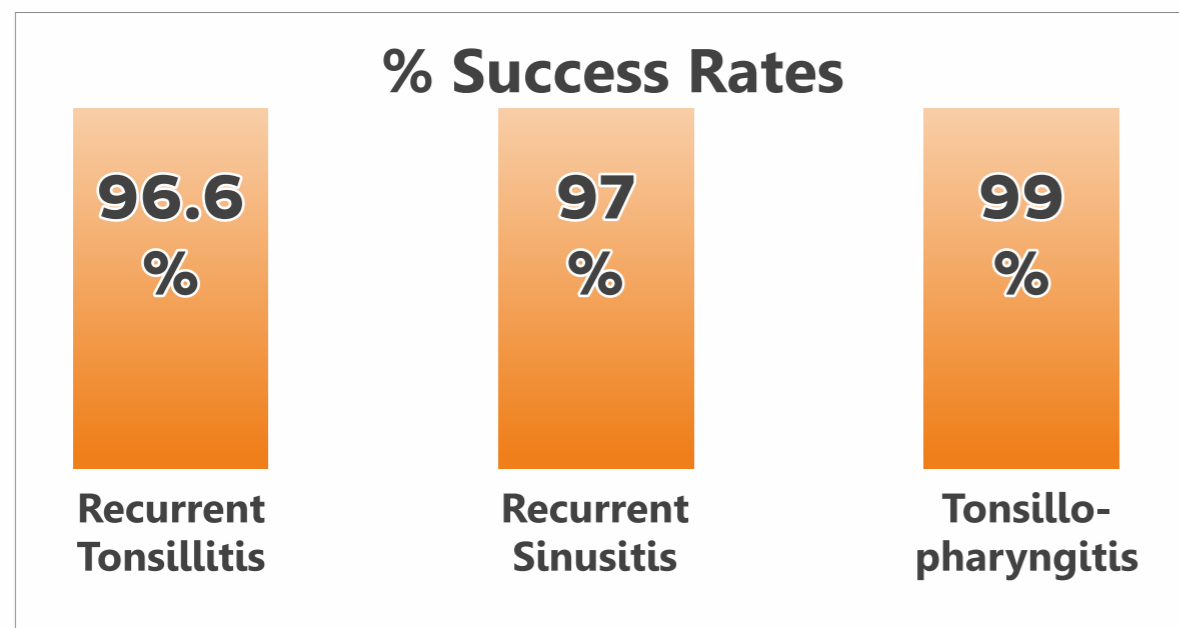

▶ Faster onset of action-rapid relief.

▶ No drug interaction-ideal for elderly.

*Two Performers Together Serves Perfection...*

# CBCCLAV-625

Amoxicillin Sod. 500mg + Clavulanic Acid 125mg Tablet

*Indication :*

- ✓ RTI & UTI
- ✓ Otitis media, Tonsillitis
- ✓ Gynaecological Infections
- ✓ Skin & soft Tissue Infections
- ✓ Dental Infections

## Amoxicillin

- ✦ Proven efficacy against wide range of Gram +ve & Gram -ve organism.
- ✦ Achieves high cure rate of 99% in Tonsillopharyngitis.

## Clavulanic Acid

- ✦ Wide spectrum of activity
- ✦ Stable in presence of gastric acid

***Dual Power  
for Better Performance...***

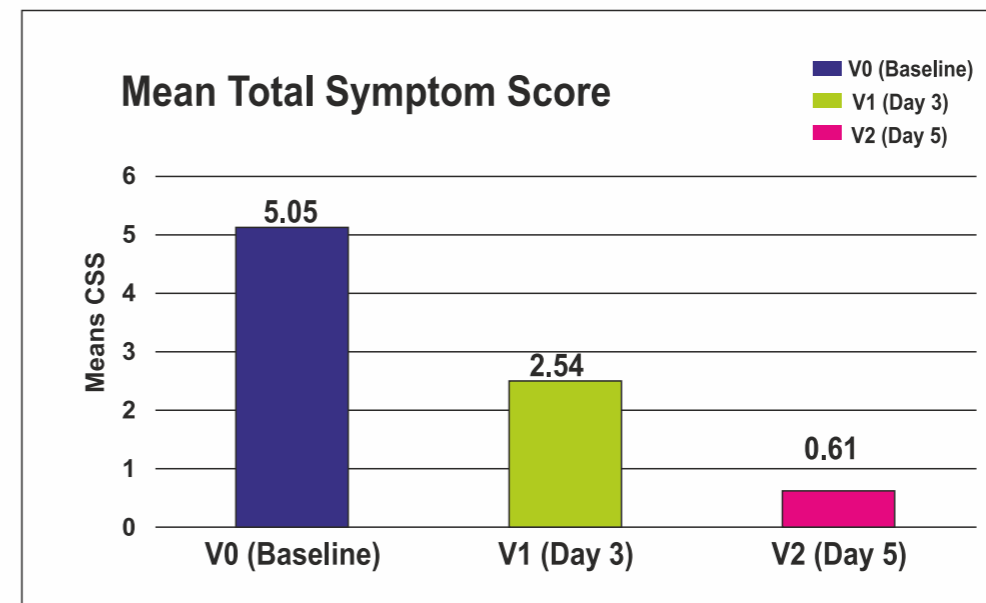

*Enjoy every season with....*

# TOSSBEE COLD

Levocetirizine 2.5mg + Phenylephrine 10mg + Paracetamol 500mg Tablet

**Complete relief from the symptoms of Common Cold and Allergic Rhinitis in just 5 days.**

JMSCR Vol||05||Issue||03||Page 19524-19530||March

*Indication :*

- Common Cold**
- Seasonal Cough & Cold**
- Nasal & Sinus Congestion**
- Rhinitis**
- Sinusitis**

- ✦ Relieves Nasal & Sinus congestion quickly.
- ✦ Provides feeling of well being.
- ✦ Lower incidence of drowsiness.
- ✦ Provide quick relief.

***Dry Cough Expert TOSSBEE COLD...***

*When Allergy Disturbs The Quality Of Life*

# TOSSBEE-LM

Levocetirizine 5mg + Montelukast 10mg Tablet

*Indication :*

- ✓ **Acute allergic reactions**
- ✓ **Atopic Eczema**
- ✓ **Allergic Rhinitis**
- ✓ **Allergic Dermatitis**
- ✓ **Extrinsic Asthma**
- ✓ **Skin rash**

 **Control  
Of Allergy & Asthma**

## Provides Power against Allergic disturbances

- ✦ **Reduces** broncho constrictin caused by the leukotriene.
- ✦ **Controls** early as well as last phage of all allergic rhinitis.
- ✦ **Once daily dosage** improves patient compliance.
- ✦ **Synergistic effect** better than individual agent.

## CLINICAL THERAPEUTICS

Clin Ther. 2018 Jul;40(7):1096-1107.

The fixed-dose combination of montelukast and Levocetirizine was effective and safe in treating recurring allergic rhinitis in patients with asthma compared with montelukast alone.

*In Dry, Persistent cough*

# TOSSBEE Syrup

**Each 5 ml contains:**

Phenylephrine 5mg+ chlorpheniramine maleate 2mg/ +  
Dextromethorphan Hydrobromic 15 mg + Menthol qs Syrup

**83% Reduction in Cough Severity Score in just 5 Days**

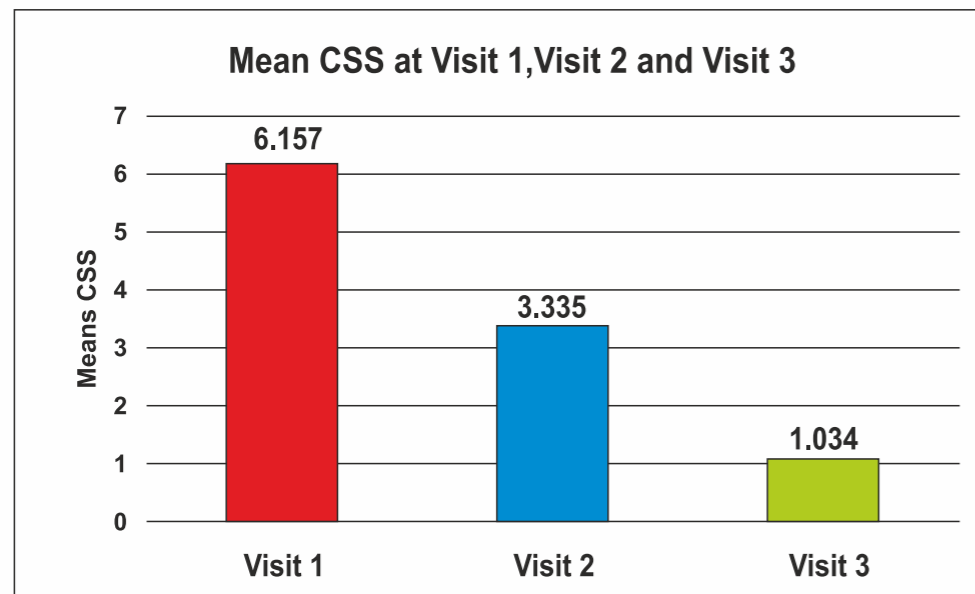

Figure 1: Mean CSS at Visit 1,2 and 3.

Ref.-wjpls, 2019, Vol. 5, Issue 2, 164-168

**Menthol Flavor**  
Sugar Free

### Dextromethorphan Hydrobromide

- ✦ A powerful & safe antitussive
- ✦ Suppresses dry irritating cough
- ✦ Relieves sore throat

### Chlorpheniramine Maleate

- ✦ A potent antihistaminic that reduces Rhinorrhea & Sneezing

### Phenylephrine

- ✦ A decongestant that clears airways without causing CNS stimulation, insomnia, irritability.

*Indication :*

- Dry Cough
- Nasal Decongestant
- Anti Tussive
- Cough Suppressant

***Dry Cough Expert TOSSBEE SYRUP...***

**Co-prescribe with NSAID**  
**Manage ACID PEPTIC disorders...**

# CLINIRAB -20

Rabeprazole 20mg Tablet

*Indication :*

- Heartburn**
- GERD**
- Acidity with nausea**
- NSAID-Induced Gastritis**

## Rabeprazole

- ✦ It Acts as Protom Pump Inhibitor.
- ✦ Prevents Excessive Gastric Acid Secretion.

► Start with **CLINIRAB -20** prompt control on symptoms

► Stay with **CLINIRAB -20** profound control on acid secretion increased mucin synthesis

**Presenting The Trusted PPI In Its Class**

# CLINIRAB DSR

Rabeprazole Sodium 20mg EC Domperidone 30 mg SR Capsule

**Differentiated Micro Pellet Technology & Advanced sustained release Pattern**

**Domperidone IR**

(0-8 Hr Action)

**Domperidone SR**

(8-16Hr & 16-24 Hrs Action  
(1st Coating & 2nd Coating))

**Rabeprazole EC**

(0-24 Hr Action)

**Sustained Release Effect**

- Reduction in frequency of administration of drug so better dosage compliance it has O.D. Dosage.
- Maintenance of therapeutic effect overnight.
- Decreased incidence of undesired effects so lesser side effects

**Rabeprazole**

- ✦ Activates within 7 minutes
- ✦ Trusted PPI
- ✦ Prevents gastric Acid secretion.

**Domperidone**

- ✦ A trusted anti-emetic prokinetic agent.
- ✦ Promotes Gastric Emptying.

*Indication :*

- ✓ **Hyperacidity with motility disorders**
- ✓ **GERD**
- ✓ **Dyspepsia Chronic Gastritis**
- ✓ **Diabetic Gastropathy**
- ✓ **Post operative Nausea & Vomiting**

**CLINIRAB DSR... Faster Action For Faster Relief...**

Is made **special** by

**Specially Engineered  
Iron Amino Acid Bond**

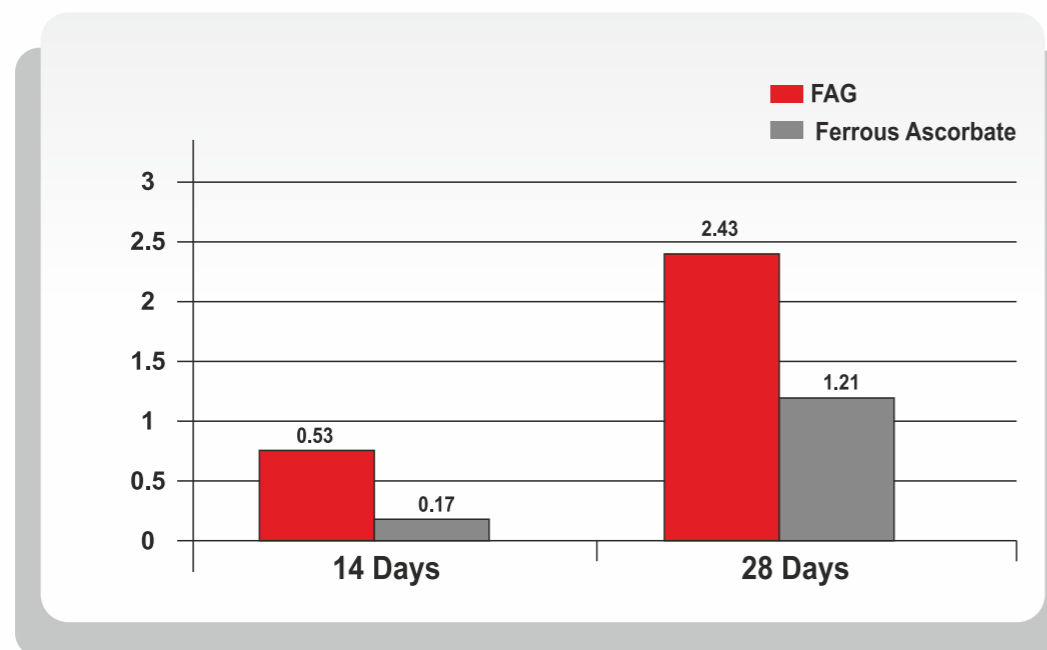

# CLINIIRON 100

Ferrous Asparto Glycinate Eq to Elemental Iron 100mg +  
L- Methylfolate Calcium 300mcg+ Methylcobalamin 500mcg Tablet

## New Paradigm Swift for Treatment of Anemia

Effect of 14 and 28 day's treatments with  
Ferrous Asparto Glycinate and Ferrous Ascorbate  
on haemoglobin levels (g/dL)<sup>1</sup>

Ferrous Asparto Glycinate with the additional advantages of L-methylfolate and methylcobalamin shows favourable efficacy with a superior rise in haemoglobin and ferritin levels and negligible GI side effects, compared with Ferrous Ascorbate

Ref : June 2014 Journal of Obstetrics and Gynaecology 35(1):1-5

## Superior Rise in Hemoglobin & Ferritin Levels

### Ferrous Asparto Glycinate

✦ Better absorption, bioavailability & GI tolerability compared to ferrous ascorbate.

### Methylcobalamin, L-Methylfolate & Pyridoxal-S-Phosphate

✦ Helps in maturation of RBC's.  
✦ Normalizes elevated homocysteine levels.  
✦ Reduces the risk of neural tube defects.

### Indication :

- Iron Deficiency Anemia
- Chronic Illness
- Pregnancy & Lactation
- Heavy Blood Loss
- General Weakness

***Puts more Iron in the Blood,  
Safely & Surely***

***We need Antioxidant with Multivitamin &  
Multimineral for normal metabolic activity***

# CLIZIP PLUS

A Blend of Antioxidants, Multivitamin & Multimineral Tablet

- ✦ Prevents cascade of free radical damage
- ✦ Prevent Premature ageing
- ✦ Enhances metabolic processes
- ✦ Improves physical & mental stamina

*Indication :*

- Weak Immunity**
- Cataract**
- Stress**
- CV Problems**
- Ageing**
- Cancer**

**CLIZIP PLUS...**

***Healthy Option For Complete Diet...***

**DID YOU KNOW?**

**Calcium alone**

is not enough for **Bone Strength**

We Need Synergistic Balanced Formula  
Fortified with adequate Nutrients to  
Improve Bone & Joint Health

*Presenting...*

**CALDIBEE**

**Calcitriol 25 mcg + Calcium Citrate  
Malate 1000 mg +  
Methylcobalamine 1500 mcg +  
Omega 3 Fatty acid EPA 90mg +  
DHA 60mg + Folic acid 400 mcg +  
Boron 1.5 mg**

## Highly Potent Combination of Bone Building Nutrients

# CALDIBEE

Calcitriol 25 mcg + Calcium Citrate Malate 1000 mg + Methylcobalamine 1500 mcg + Omega 3 Fatty acid EPA 90mg + DHA 60mg + Folic acid 400 mcg + Boron 1.5 mg Tablet

Maximum Absorbable Calcium  
Than Other Calcium

### Absorbability Of Calcium In Different Forms

Calcium Source	Approximate % Elemental Calcium	Approximate % Absorbable Calcium	Approximate Solubility (mM/Litrer)
Calcium Citrate Malate	20%	40%	80
Calcium Carbonate	40%	26%	0.14
Calcium Citrate	22%	24%	7.3

✦ With CCM no GI side effect.

✦ Gives Highest elemental Calcium

#### Calcitriol :

Increase the calcium absorption.

#### Omega 3 Fatty acid :

Reduces inflammation and improve joint flexibility.  
Helps strengthen the immune system a brain function.

#### Mehtylcobalamin :

Essential for maintain a healthy nervous system & energy levels.

#### Folic Acid :

Strengthens foetal development.  
Important for cell growth & metabolism.

#### Boron :

Building strong bones, treating osteoarthritis.

#### Indication :

- ✓ Fractures
- ✓ Pregnancy
- ✓ Osteomalacia
- ✓ Osteoporosis
- ✓ Postmenopausal Osteoporosis

**STAY STRONG with..... CALDIBEE**

*In management of allergic inflammation & auto-immune diseases*

# BEECORT 4

Methylprednisolone 4 mg Tablet

*Indication :*

- ✓ Bronchial Asthma
- ✓ Allergic Rhinitis
- ✓ Atopic Dermatitis
- ✓ Rheumatoid Arthritis
- ✓ Ulcerative Colitis

Early, low-dose and short-term application of methylprednisolone was associated with better clinical outcomes in severe **patients with COVID-19 pneumonia.**

(Signal Transduction and Targeted Therapy volume 5, Article number: 57 (2020))

Achieve higher lung tissue-to-plasma ratios than dexamethasone- **More effective for lung injury**

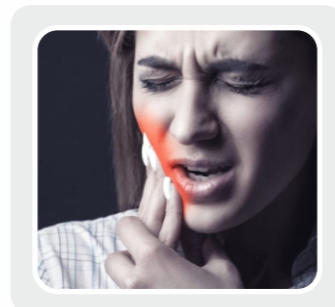

Minimal sodium retention than prednisolone- **Lowers risk of hypertension & oedema**

**BEECORT 4... Control Over Inflammatory Response**

*In Acute Painful Inflammatory Conditions...*

# COXBEE PLUS

Aceclofenac 100mg + Paracetamol 325mg Tablet

## Aceclofenac

- ✦ Aceclofenac has better gastric tolerance compared to other NSAID.
- ✦ An NSAID with greater COX2 inhibitor when compared to Diclofenac.
- ✦ Blocks PGE2 secretion at the site of inflammation.

## Paracetamol

- ✦ The universally accepted analgesic & antipyretic
- ✦ Acts synergistically with aceclofenac

### *Indication :*

- Pain & Inflammation
- Low back pain
- Spondilitis
- Surgical & Dental pain
- Arthritis & Cervical Pain

*A Safe Nsaid With Enhanced Action...*
